PROFESSIONAL SUMMARY

Assistant System Engineer at TCS with production experience in Linux, CI/CD, and cloud infrastructure. Built end-to-end Kubernetes pipelines and AWS environments with Terraform; focused on reliability engineering and eliminating toil through automation.

PROFESSIONAL EXPERIENCE

Assistant System Engineer - Tata Consultancy Services (TCS) Dec 2025 – Present | Chennai, India

- Wrote Bash/Python scripts automating 6+ recurring ops tasks, cutting manual effort by ~3 hrs/week
- Built ELK dashboards tracking system health across production Linux hosts; reduced mean time to detect issues
- Deployed and troubleshoot 3+ applications across VM and cloud environments, supporting zero-downtime releases

TECHNICAL PROJECTS

Kubernetes-Based CI/CD Pipeline for Microservices

| Tech Stack: Docker, Kubernetes, Helm, GitHub Actions, Prometheus, Grafana

| github.com/nareshcybersecurity/devops-k8s

- Built CI/CD pipeline to automate build, test, and deployment of containerized microservices using GitHub Actions
- Deployed applications on Kubernetes with rolling updates and zero-downtime deployments
- Managed configurations with ConfigMaps & Secrets; enabled auto-scaling via Horizontal Pod Autoscaling (HPA)
- Integrated Prometheus & Grafana for real-time observability dashboards and alerting

Infrastructure Automation on AWS using Terraform

| Tech Stack: Terraform, AWS (EC2, S3, VPC, RDS), CloudWatch, CloudTrail

| github.com/nareshcybersecurity/aws-terraform

- Provisioned complete AWS infrastructure (VPC, EC2, subnets, load balancer) using modular Terraform
- Automated application deployment on EC2 using Bash scripting; configured CloudWatch alerts for key metrics
- Implemented IAM roles and security groups following least-privilege principle; enabled CloudTrail auditing

SKILLS

- **Operating Systems & Scripting:** Linux (Ubuntu, CentOS, RHEL), Bash, Shell scripting, Python
- **Version Control & Collaboration:** Git, GitHub, GitLab
- **CI/CD Tools:** Jenkins, GitLab CI/CD, GitHub Actions
- **Containerization & Orchestration:** Docker, Kubernetes, Helm
- **Infrastructure as Code (IaC):** Ansible, Terraform
- **Cloud Platforms:** AWS (EC2, S3, VPC, IAM, RDS, CloudWatch, CloudTrail), Azure
- **Monitoring & Logging:** Prometheus, Grafana, ELK Stack (Elasticsearch, Logstash, Kibana)

EDUCATION

B.E, Computer Science and Engineering
Saveetha School of Engineering, SIMATS, Chennai

2021 – 2025
CGPA: 8.1
